

Rozate Surreal from the Worst Dream Litter 2024

ROZATE WORST PLAYBOY EVER (AI)

ROZATE INVEST IN A DREAM (AI)

BORN:5 JANUARY 2024

Bug is a fabulous young girl who is full of life and fun. Bug has good early training and is crate, kennel and house trained. She walks well on a leash and loves to be involved in every aspect of life.

From a working line Bug is full of energy but also can relax and be calm. She is up for any adventure you'd like to take her on.

Bred specifically for herding Bug is a natural, instinctive and willing herding dog. With little to no training she capably manages stock. Bug comes with FREE herding training for life (offered weekly in Nyora).

Mum: **Quill**
Dad: **Rex**

Quill is an intense, active and keen dog. On stock she is VERY intense (for an Aussie) and will work fast and with power and precision. Rex is calm, biddable, quietly powerful and sensible. When not working they are usually happy to rest and wait but can become a little too observant about movement.

Rex is beginning his trialling career and will work cattle, sheep and ducks. He is wide flanking, calm and has significant power on stock when needed. Rex loves spending time with his people, playing with the visiting toddler and watching the world go by.

Quill earned her sheep titles quickly and enjoys any opportunity to work that she can get. Quill will be introduced to work on cattle and ducks also after this litter. She loves to watch sheep and family. She adores a pat and being part of family time.
